

## Fall Town Hall Series

Since the announcement of the intended merger between Southeast Corporate and Corporate One in September, both corporates have been working together to complete all the due diligence necessary to meet with the approval of the NCUA, and most importantly, the approval of Southeast member credit unions.

Beginning in late October, Southeast and Corporate One will host a series of Town Hall meetings to share more about our progress toward the merger and its benefits. These Town Halls will give member credit unions and their respective boards of directors an opportunity to meet with us and discuss the primary goals for this merger; preservation of members' capital, continuity of service and protection and enhancement of the long-term value Southeast has provided for more than 30 years. All Town Hall meetings will take place from 1– 3 p.m. and include light refreshments.
