

BRANCH CAPTURE

Branch Capture is a convenient web-based solution that offers intuitive, time-saving features for credit union staff to efficiently conduct work without error.

BENEFITS

- + All check collection and settlement activity are consolidated in one place.
- + Minimal keying is required of your credit union staff as missing account and check numbers are entered into the system for you.
- + Overall efficiency is increased due to the adjustments feature.
- + System features mitigate operational and fraud risks, such as limiting unnecessary adjustments and/or losses due to duplicate detection.
- + Administrative controls offer staff additional levels of research and greater insight into the item processing process.

FEATURES

- + Web-based software allows scanners to be moved from one machine to another with minimal effort
- + Items cleared over the counter can be scanned as “image only” and archived for online access
- + Administration module displays deposit activity by teller, branch and number of items
- + Adjustment requests can be submitted and tracked online
- + Foreign item image capture and archive

About TranzCapture

Corporate One uses TranzCapture LLC, a credit union service organization, as the platform for all its item processing services. TranzCapture streamlines work through its web-based platform that offers consolidated administration and processing.

Users access TranzCapture through Members Only, Corporate One’s online member portal, and conduct all item processing work, including verifying items, viewing archives and running reports from one consolidated platform. Members can count on robust reporting, real-time duplicate item and batch detection and same-day access to images in a seven-year archive.

How Does it Work?

TranzCapture verifies the image quality, reads the item amount, and securely transmits the image and data file for processing, image archival and check collection.
