### **Corporate One Federal Credit Union Partners with Access Softek to Bring EasyVest™, a Robo-Advisor, Digital Investing Tool to Credit Unions**

COLUMBUS, Ohio – Corporate One Federal Credit Union will offer Access Softek’s EasyVest, a robo-advisor investment tool that seamlessly integrates with any credit union’s online and mobile banking platform, through an exclusive corporate credit union agreement, to credit unions nationwide. [Access Softek, Inc.](#), an online and mobile banking software provider, launched EasyVest as the first robo-advisor that is native to credit union mobile banking apps.

“EasyVest presents an exciting opportunity for Corporate One to help credit unions compete in the growing robo-advisor market that is dominated by larger financial institutions, investment firms and fintechs,” said Melissa Ashley, President and CEO of Corporate One Federal Credit Union. “Integration into a credit union’s online or mobile banking platform makes it simple for members to view, access and transfer their investment funds right from the same menu as their checking and savings accounts. Best of all, through EasyVest, credit unions can get their members into the market with as little as \$200 and provide a valuable wealth management product that will better retain and grow the next generation of members.”

EasyVest provides credit unions a low-cost tool to better compete with national banks and fintechs by offering a new way to attract and retain consumers and provide a fully compliant, no-investment-risk revenue stream. This tool will also complement and grow existing wealth management programs.

“The vast majority of credit union members must utilize outside financial services organizations if they want to invest in the market, and EasyVest provides a simple way for the 1.4 trillion dollar credit union market and its 100 million members to tap into the \$73 trillion investment market,” said Chris Doner, founder and CEO of Access Softek. “Working with Corporate One, we are able to bring this solution to hundreds of credit unions across the nation, representing millions of members who are seeking an easy, low-cost way to begin investing for their future.”

Corporate One is one of the nation’s largest and most progressive corporate credit unions. The agreement with Access Softek provides another solution to help Corporate One’s credit unions grow their bottom line and better serve their membership. Most recently, Corporate One was certified as the first corporate credit union in The Clearing House’s (TCH) RTP Network, demonstrating their abilities to adopt new, cutting-edge technologies.

### **About Access Softek, Inc.**

Access Softek sets the standard for the digital banking landscape, having developed the first downloadable apps for mobile banking technology. Since that time, Access Softek has maintained a track record of innovation from its award-winning biometric authentication to real-time fraud prevention and automated investing integrated directly into a financial institution's digital banking platform. Since 2004, Access Softek has delivered industry firsts to over 400 bank and credit union customers from its Berkeley, California headquarters.
