Ryan Murphy, Executive Vice President, Chief Financial Officer, 866/692-6771 ext. 9271 or Tammy Cantrell, Executive Vice President, Chief Product Strategist, 866/692-6771 ext. 9312.

### Dear Members,

Please find attached our unaudited financial statements and regulatory ratios as of October 31, 2025. Our October 2025 5310 report is available on our public website at https://www.corporateone.coop/About/Financials, along with our 2024 audited consolidated financial statements and footnotes.

For the 10 months ended October 31, 2025, we recorded \$43.1 million in net income. Our total regulatory capital now exceeds \$609.2 million; of that amount, \$384.8 million is retained earnings and \$231.7 million is Perpetual Contributed Capital (PCC) from our member PCC owners. This results in a leverage ratio of 8.17 percent, well above the NCUA's Regulation 704 well-capitalized level of five percent.

### **Resilience Amid Economic Shifts**

The broader economic environment over the last year—marked by elevated interest rates and cautious consumer spending—has driven significant liquidity across the credit union system. Corporate One has successfully navigated these dynamics by delivering competitive rates and supporting member growth during this period. As a result, member deposits have increased, pushing our Moving Daily Average Net Assets (MDANA) to \$7.46 billion at October 31, 2025, up from \$6.29 billion a year ago. While we have also generated strong earnings over this same period, the increase in MDANA has led to modest declines in our capital ratios. Despite the recent dilution, our capital ratios continue to exceed all well-capitalized standards under NCUA Regulation 704, underscoring the depth and stability of our capital base.

We actively manage our balance sheet, liquidity, and capital to ensure flexibility and resilience in the face of economic uncertainty. Regardless of future market conditions, Corporate One is well-prepared to adapt and thrive.

We remain committed to prudent financial management and transparency. Thank you for your continued trust and partnership. If you have any questions about our financial condition, please feel free to contact me at <a href="mainto:rmurphy@corporateone.coop">rmurphy@corporateone.coop</a> or 866/692-6771, ext. 9271.

Sincerely,

### **Ryan Murphy**

Executive Vice President. Chief Financial Officer

### **Capital Ratios and NEV**

The NCUA Rules and Regulations, Part 704, provides the rules for governing corporate credit unions. The rules include the capital framework, definitions for various capital instruments, and the capital ratios a corporate credit union must meet.

The following table presents the ratios, definitions of the numerators, and denominators for each of the ratios and the required minimum levels for well-capitalized and adequately capitalized designations under the regulation. The definitions of the numerators are simplifications, as the regulation contains certain adjustments to each capital calculation.

	Numerator	Denominator	Well capitalized	Adequately capitalized
Retained earnings ratio	Retained earnings	MDANA	0.45%	0.45%
Leverage ratio	Tier 1 Capital***	MDANA*	5.00%	4.00%
Tier 1 risk-based capital ratio	Tier 1 Capital***	MDANRA**	6.00%	4.00%
Total risk-based capital ratio	Total Capital***	MDANRA**	10.00%	8.00%
NEV ratio	Fair Value of Assets less Fair Value of Liabilities	Fair Value of Assets	2.00%	2.00%

<sup>\*</sup>Moving Daily Average Net Assets (NCUA Rules and Regulations §704.2 allows for the deductions from Tier 1 capital to also be deducted from MDANA)

The following summarizes Corporate One's capital and NEV ratios as of October 31, 2025, and 2024.

	October 31, 2025	October 31, 2024
Retained earnings ratio	5.16%	5.50%
Leverage ratio*	8.17%	9.03%
Tier 1 risk-based capital ratio	26.82%	29.43%
Total risk-based capital ratio	26.82%	29.44%
NEV ratio	7.59%	7.98%
MDANA	\$7.46 B	\$6.29 B
MDANRA	\$2.27 B	\$1.93 B

<sup>\*</sup> NCUA Rules and Regulations §704.2 allows for the deductions from Tier 1 capital to also be deducted from MDANA for use in the Leverage ratio calculation. However, one such deduction was not built into the 5310 calculations, which can result in a slightly different leverage ratio. For October 2025 and 2024, our 5310 reports an 8.16% and 9.02% leverage ratio, respectively.

<sup>\*\*</sup>Moving Daily Average Net Risk Weighted Assets

<sup>\*\*\*</sup>As defined by the NCUA Rules and Regulations §704.2
